

Packaging and Container Solutions

As an affiliate of Universal Forest Products, International Wood Industries, or IWI, leverages Universal's preferred-status relationships with top manufacturers for our customers' benefit. Thanks to this enviable status, we can be your single-source supplier for packaging and container solutions. Our deep roster of supply contacts means you get the best available packaging materials, at the best possible pricing.

We offer tool repair service, including general service, preventative maintenance, installation and manufacturers' warranty service. We also can offer the dependability of an on-site PACS service technician and the reliability of 24-hour emergency service.

The Complete Package

■ Wood pallets, containers, crates and cartons

Stock sizes and custom sizes built to your specifications.
Heat-treated and IPPC certified.

■ Regular and ventilated stretch film

Available in all strengths and sizes.

■ Plastic custom film

Shrink and bundling films, bags and more.

■ Paper products

Various sizes and thicknesses, for uses ranging from pallet-side protectors to separator sheets.

■ Corner protectors

Available in many sizes.

■ Bubble wrap, void-fill systems, foam cushioning products

All types, styles and sizes of packaging to protect products from vibration and damage.

■ Strapping products and equipment

Various strapping materials, from poly to metal, in all strengths and sizes, plus heavy-duty strapping equipment.

■ Package design and engineering service

Backed by Universal's decades-long expertise in engineering and manufacturing wood products, we are a natural choice for custom designing your wood products.

Packaging and Container Solutions

Our experienced service technicians can perform general service, preventative maintenance, installation, and manufacturer's warranty service on many types of packaging equipment. We can provide preventative maintenance on all of your equipment with competitive service rates and the ability to choose how often your equipment is serviced. We also complete installations on new and used packaging equipment.

We distribute several lines of quality packaging equipment and are happy to get you the right equipment for your everyday packaging needs.

*If you can wrap it,
shrink it, fill it,
or strap it,
IWI can fix it.*

IWI and Universal can easily provide and service the following equipment:

- Stretch wrappers
- Strapping equipment
- Tapers
- Labeling equipment such as inkjet, print and apply, and thermal transfer.
- Shrink systems
